That's it. Do you know how long the search will take?

I need confirmation that this is the universe of what you are looking for, because I cannot have a search done twice. So please confirm that you will not be asking for anything further and that you will not ask to expand the time period beyond the one-year period.

BTW, that is one reason why I need this in writing, so that there will be no disagreements or differing recollections later on.

That's not my recollection. I said I wanted his notes relating to [REDACTED], including notes of meetings and notes of contacts with the DA's office. The only thing I was unsure about was the time period. I mentioned a year, from November 2009 to November 2010, but that if I wanted a longer period I would let you know. As indicated below, the period I want remains 11/1/09 to 11/1/10. Is there anything else you need?
